CME - Indian Medical Association, Jaunpur, UP

RGCIRC organized a CME in association with IMA Jaunpur on Saturday, 14th April 2018 at IMA Bhawan, Jaunpur, UP. Dr. Rajeev Kumar, Sr. Consultant - Surgical Oncology delivered a lecture on “Intricacies in Cancer Surgery”, Dr. Kundan Singh Chufal, Sr. Consultant and Chief of Breast and Thoracic Radiation Oncology delivered a lecture on “Advances in Radiation Oncology: From Cure to Quality Life” and Dr. Ajaib Dubey, Senior Resident - Surgical Oncology spoke on “Surgical Oncology at RGCIRC” in the said CME.

Cath Lab Inauguration

Cath lab in the Department of Radiology was inaugurated on Monday, 16th April 2018 in the presence of Mr. D. S. Negi, CEO, Dr. Sudhir K. Rawal, Medical Director, RGCIRC Rohini, Dr. A. K. Chaturvedi, Chair - Radiology, Dr. S. Avinash Rao, Director - Radiology, Dr. Gauri Kapoor, Medical Director, RGCIRC Niti Bagh, Dr. Sunil K. Khetarpal, other HODs, Sr. Consultants and Administrative Staff. This is a state of art ceiling mounted cath lab with Dyna CT, 3D, 4D procedures and Emboguide. This is the first cath lab installation exclusively optimized for oncology interventions in North India.

The cath lab is fully functional now and will be used for various interventional radiological procedures like diagnostic angiographies, bland angioembolizations, chemoembolization (TACE), partial splenic embolization, Y90 radioembolizations (TARE), hepatobiliary procedures (PTBD, internalization, stenting, TIPS, transjugular liver biopsy), percutaneous gastrostomy, PICC line placement, chemo port placement, vertebroplasty and other interventions.

CME on Giant Cell Tumor & Pathological Fractures

RGCIRC organized a CME on Giant Cell Tumor & Pathological Fractures in association with Delhi Orthopedics Association (DOA) & India Musculo Skeletal Oncology Society (IMOSO) on Sunday, 22nd April 2018 at Hotel Crowne Plaza, Rohini, Delhi. The purpose of the CME was to discuss the latest and the most robust evidence currently available for the management of Giant Cell Tumors of bone, and cases of pathological bone fractures. Various orthopedicians from Delhi NCR and neighboring states participated in the said CME.
**IARS 2018 - Annual Meeting and International Science Symposium**

RGCIRC participated in International Anesthesia Research Society (IARS) Annual Meeting and International Science Symposium (Anesthesiology) held on 28th April - 1st May, 2018 at Hyatt Regency, Chicago, Illinois, USA. Theme of the conference was “Improving Health through Discovery and Education”. Dr. Iftee Chowdhury, Sr. Consultant - Anesthesiology gave a presentation on “Anesthesia Technique, Outcome and Our Experience in Two Hundred Cases of Transoral Robotic Surgery - A Retrospective Study” in the said conference.

**CME - Indian Medical Association, Kaithal, Haryana**

RGCIRC organized a CME in association with IMA Kaithal on Saturday, 5th May 2018 at Mannat Hotel, Kaithal, Haryana. Dr. L. M. Darlong, Sr. Consultant and Chief of Thoracic Surgical Oncology delivered a lecture on “Thoracic Surgery - Changing Paradigms” and Dr. Swarupa Mitra, Sr. Consultant & Chief of Gynecological and Genitourinary Radiation Oncology spoke on “Updates in Radiotherapy - Stereotactic Radiosurgery in Lung Carcinoma” in the said CME.

**Advisory Members Meeting At Vienna, Austria**

RGCIRC participated in Advisory Members Meeting held on 7th - 11th May 2018 at Vienna, Austria. Dr. Arvind K. Chaturvedi, Chair - Radiology and Chairman Tumor Board at RGCIRC was invited by International Atomic Energy Agency (IAEA), United Nations to Vienna to advise on matters of “Early Cancer Detection in Low Resource Countries”. This is an honor for RGCIRC.

**CME - Indian Medical Association, Rohini, Delhi**

RGCIRC organized a CME in association with IMA Rohini on Saturday, 12th May 2018 at Hotel Crowne Plaza, Rohini, Delhi. Dr. Mudit Agarwal, Sr. Consultant - Head & Neck Surgical Oncology delivered a lecture on “Recent Advances in Head & Neck Surgery” and Dr. Kumardeep Dutta Chaudhary, Consultant - Medical Oncology spoke on “Role of Chemotherapy in Head & Neck Cancer” in the said CME.
CME - Indian Medical Association, Hisar, Haryana

RGCIRC organized a CME in association with IMA Hisar on Saturday, 19th May 2018 at Midtown Grand, Hisar, Haryana. Dr. A. K. Dewan, Director - Surgical Oncology delivered a lecture on “Oncology - What a Physician Needs to Know?” and Dr. Gurudutt Gupta, Sr. Consultant & Head - Histopathology spoke on “Role of Laboratory Services in Management of Malignancy” in the said CME.

CME - Indian Medical Association, Amritsar, Punjab

RGCIRC organized a CME in association with IMA Amritsar on Friday, 25th May 2018 at IMA Hall, Amritsar, Punjab. Dr. Gauri Kapoor, Medical Director - RGCIRC, Niti Bagh & Director - Pediatric Hematology Oncology delivered a lecture on “Recent Advancements in Management of Malignancy” and Dr. Sumit Goyal, Sr. Consultant - Medical Oncology spoke on “Lumps, Bumps & Masses - When to Suspect Malignancy” in the said CME.

Delhi State Women Doctor’s Conference

RGCIRC participated in Delhi State Women Doctor’s Conference and National Convention on Menstrual Hygiene organized by Delhi Medical Association (DMA) on Sunday, 27th May 2018 at DMA House, Darya Ganj, Delhi. The theme of the conference was “Women Health & Womanhood”. Dr. Rupinder Sekhon, Sr. Consultant and Chief of Gynaec Surgical Oncology delivered a lecture on “Cancer in Women” in the said conference.

CME - Indian Medical Association, Varanasi, UP

बल्ले ब्रेन ट्यूमर डे: तेजी से फैल रही इस बीमारी की जानकारी होना है बेहद जरूरी क्या आपको वग़ातार मिठाई, मिठाई, शुद्धता विश्वास देना और क्रियाकलाप बैलिंग में परेशानी हो रही है? तो इस लक्षणों को नबंद अंतर ना करें क्योंकि यह ब्रेन ट्यूमर जैसी बड़ी समस्या का संकेत हो सकता है, तुरंत अपने डॉक्टर से संपर्क करें। इस बिजली बीमारी की पहचान अग्रणी समय रहते ना की जा तो अचिनके के बीजी के लिए खतरा हो सकता है।

ब्रेन ट्यूमर का सबसे महत्वपूर्ण अंग होता है। लेकिन बिजली वायरस फायडल के दौरान ये ब्रेन ट्यूमर का कहर गति बदलता जा रहा है। यह एक बड़ा ही हालात रोग है। 5 जून को बल्ले ब्रेन ट्यूमर डे मनाया जाता है। इस साल के इस पर हम आपको बताने जा रहे हैं कि यह बीमारी क्या है, इसके लक्षण और तेजी से फैलने के रूप का कारण है?

ब्रेन ट्यूमर डे का कारण
ब्रेन ट्यूमर का प्रमुख कारण कोई भी बीमारी नहीं होता है, लेकिन कई बार यह लागू होता है। ब्रेन ट्यूमर का कारण एस्ट्रेगेन्स में एस्ट्रोटराक होने वाले हैं या ट्यूमर तंत्रिका में अनोर्मल परिवर्तन भी हो सकता है। ब्रेन ट्यूमर का एक बार अनुपस्थित कारण से भी यह मुश्किल बन जाता है। लेकिन यह भी फूल है कि आप भी ब्रेन ट्यूमर के अनुपस्थित कारणों के बारे में जानकारी नहीं हैं।

ब्रेन ट्यूमर के लक्षण
- सुदृढ़ उन्न तक की धरती ही मिले पर दर्ज होगा।
- अचानक उन्न खाना मुस्कुराया होगा।
- व्यक्तियों में समय लगता है।
- फलों के साथ वर्तमान को लगता है।
- आंखों के कारण में सूक्ष्मीय वर्तमान।
- दोहराते हुए साफ़ साफ़ होता है।
- इन के लिए एस्ट्रोटराक को संपर्क करें।
- रोजगार के कारण में सूक्ष्मीय वर्तमान।
- दौरा रहने का कस्तो त्यून देना।

हालांकि, मूल ब्रेन ट्यूमर के कारणों का सही-सही पता नहीं चलता है। लेकिन अगर कोई-कोई मिलता है तो इसे जीविता की तरह से मरने का लक्षण होगा। तो इसे लोगों के लिए आमतौर पर नहीं होता है। इसके साथ-साथ ब्रेन ट्यूमर के लक्षण के साथ भी एक बार अनुपस्थित कारण से भी यह मुश्किल बन जाता है।

ब्रेन ट्यूमर के लक्षण
- आंखों के कारण में सूक्ष्मीय वर्तमान।
- इन के लिए एस्ट्रोटराक को संपर्क करें।
- रोजगार के कारण में सूक्ष्मीय वर्तमान।
- दौरा रहने का कस्तो त्यून देना।

एस्ट्रागेन्स की राय
बाहरी आरोग्य संस्थाओं, परीक्षा के संबंध में मेन्टलिटी और मूल्यधारणा डॉक्टर आए हैं जो ब्रेन ट्यूमर के बारे में कहता है कि "अगर कोई या ट्यूमर के लक्षण हैं, तो अपने डॉक्टर से वास्तविकता की जाए। ब्रेन ट्यूमर की पहचान समय के साथ तेज़ी से बढ़ती है। लगतार पिरियर्ड, उन्नयन, बुद्धिमत्ता में परिवर्तन, शुद्धता बदलता है। आंखों का लक्षण नहीं होता है। ब्रेन ट्यूमर के जीवन में समय बांटता है। इसका महत्व की जाए और इसे डॉक्टर से लागू करें।"
Rajiv Gandhi Cancer Institute Launches Screening and Awareness Drive against Tobacco

Delhi, May 25 -- In the run up to World No Tobacco Day 2018, Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) has lined up a fortnight long intensive program for cancer screening and increasing awareness about harmful effects of tobacco consumption which has been proven to be a major cause of cancer in the world.

According to the latest Hospital Based Cancer Registry at RGCIRC, more than 40% cancer cases in males and 12% cancer cases in females were linked to tobacco usage during the period 2011-2015.

To celebrate World No Tobacco Day, Preventive Oncology Department at RGCIRC is organizing Free Oral Cancer Screening from 24th May to 7th June 2018 especially for smokers and tobacco chewers so as to help detect cancer in the early stages when it can be treated successfully.

Healthy lifestyle holds the key to cancer prevention. Up to 2/3 of all cancers may be prevented by avoiding tobacco and adopting other healthy habits. Preventive Oncology OPD at RGCIRC provides screening for three most common cancers breast, cervix and oral cancers at highly subsidized rates. Regular OPD is conducted from Monday to Saturday by Dr. Jai Gopal Sharma and Dr. Indu Agarwal, said Dr. Sudhir Rawal, Medical Director, RGCIRC.

Over 70 per cent of cases report for diagnostic treatment services in advanced stages of disease resulting in poor survival and high mortality rates. Preventive Oncology embracing measures to prevent occurrence of cancer and to detect cancer at the earliest stage, added Dr. Rawal.

At the same time, Free Tobacco Cessation Counseling drive is on during the campaign so as to motivate tobacco consumers to shun the habit. Tobacco is addictive and it is difficult for tobacco consumers to quit on their own. Motivation and support is critical to overcome the dependence on tobacco, added Dr. Rawal.

Besides providing world class facilities for cancer treatment, RGCIRC is sharply focused on prevention of cancer. As a pioneering move, RGCIRC has set up Preventive Oncology Department primarily to focus on creating awareness among the public about the need to screen for early detection of cancer. We are aligned with the vision of a healthy India and will continuously strive for prevention of cancer through awareness in the years to come, said Mr. D S Negi, CEO of RGCIRC.

New Delhi [India], May 26 [ANI-NewsVoir]: In the run up to World No Tobacco Day 2018, Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) has lined up a fortnight long intensive program for cancer screening and increasing awareness about harmful effects of tobacco consumption which has been proven to be a major cause of cancer in the world.

According to the latest Hospital Based Cancer Registry at RGCIRC, more than 40% cancer cases in males and 12% cancer cases in females were linked to tobacco usage during the period 2011-2015.

Regular OPD is conducted from Monday to Saturday by Dr. Jai Gopal Sharma and Dr. Indu Agarwal,” said Dr. Sudhir Rawal, Medical Director, RGCIRC.

“Over 70 per cent of cases report for diagnostic & treatment services in advanced stages of disease resulting in poor survival and high mortality rates. Preventive Oncology embraces measures to prevent occurrence of cancer and to detect cancer at the earliest stage,” added Dr. Rawal.

At the same time, Free Tobacco Cessation Counseling drive is on during the campaign so as to motivate tobacco consumers to shun the habit. “Tobacco is addictive and it is difficult for tobacco consumers to quit on their own. Motivation and support is critical to overcome the dependence on tobacco,” added Dr. Rawal.

“Besides providing world class facilities for cancer treatment, RGCIRC is sharply focused on prevention of cancer. As a pioneering move, RGCIRC has set up Preventive Oncology Department primarily to focus on creating awareness among the public about the need to screen for early detection of cancer. We are aligned with the vision of a healthy India and will continuously strive for prevention of cancer through awareness in the years to come,” said D S Negi, CEO of RGCIRC.
Rajiv Gandhi Cancer Institute launches screening and awareness drive against tobacco

In the run up to World No Tobacco Day 2018, Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) has lined up a fortnight long intensive program for cancer screening and increasing awareness about harmful effects of tobacco consumption which has been proven to be a major cause of cancer in the world.

According to the latest Hospital Based Cancer Registry at RGCIRC, more than 40% cancer cases in males and 12% cancer cases in females were linked to tobacco usage during the period 2011-2015.

To celebrate World No Tobacco Day, Preventive Oncology Department at RGCIRC is organizing Free Oral Cancer Screening from 24th May to 7th June 2018 especially for smokers and tobacco chewers so as to help detect cancer in the early stages when it can be treated successfully.

"Healthy lifestyle holds the key to cancer prevention. Up to 2/3 of all cancers may be prevented by avoiding tobacco and adopting other healthy habits. Preventive Oncology OPD at RGCIRC provides screening for three most common cancers - breast, cervix and oral cancers - at highly subsidized rates. Regular OPD is conducted from Monday to Saturday by Dr. Jai Gopal Sharma and Dr. Indu Agarwal," said Dr. Sudhir Rawal, Medical Director, RGCIRC.

"Over 70 per cent of cases report for diagnostic & treatment services in advanced stages of disease resulting in poor survival and high mortality rates. Preventive Oncology embraces measures to prevent occurrence of cancer and to detect cancer at the earliest stage," added Dr. Rawal.

At the same time, Free Tobacco Cessation Counseling drive is on during the campaign so as to motivate tobacco consumers to shun the habit. "Tobacco is addictive and it is difficult for tobacco consumers to quit on their own. Motivation and support vital to overcome the dependence on tobacco," added Dr. Rawal.

"Besides providing world class facilities for cancer treatment, RGCIRC is sharply focused on prevention of cancer. As a pioneering move, RGCIRC has set up Preventive Oncology Department primarily to focus on creating awareness among the public about the need to screen for early detection of cancer. We are aligned with the vision of a healthy India and will continuously strive for prevention of cancer through awareness in the years to come," said D S Negi, CEO of RGCIRC.

किसी भी लत को अपनाना या छोड़ना इंसान के अपने दृष्टि संस्कार पर आसान नहीं तंबाकू केंद्रों से बाहर आना

25 फीसदी धारक हवा रोग के लिए भी तंबाकू विष्टगार

प्रयुक्त @ नई दिल्ली

केंद्र के एक प्रमुख जांचकर्ता अभियोजित है, इस बीमारी के कारण कहीं भी गुजरना धारक हवा रोग के लिए योग्य है। इसके लिए स्वास्थ्य विभाग ने एक प्रतिष्ठापन समिति की स्थापना की है लेकिन इसके लिए किसी भी व्यवसायी ने अपना अधिकार नहीं चुकाया है।

90 फीसदी कैंसर होता है तंबाकू के कारण

श्री बलराम ज्योतिर्लिंगभोटे इंडियन कैंसर रिसर्च सोसाइटी के निदेशक स्वास्थ्य बनाने में अत्यधिक मदद करते हैं कि एक अनुसंधान के मुनाफे प्रवेश के प्रावधान, 30 प्रतिशत अन्य प्रकार के कैंसर, 80 प्रतिशत ब्रोन्चियाल इन्फेक्शन, इन्फेक्शन वाले 20 से 25 प्रतिशत तांडव हवा रोग का कारण द्रुत मुद्रण है। बंगाल में उनकी जिन्दगी के संदर्भ में तंबाकू का रोग किया जा रहा है उससे अंतर्गत लागू जा रहा है कि हम साल तक तंबाकू रोग के कारण किसी जाने लायक है तांडव के पीछे का जितना नुकसान है उससे कहीं ज्यादा नुकसान हो सकता है।
