NURSICON  **2019**

**First National
Nursing Conference**

**"Excellence in Oncology Nursing"
Enriching Life: A Comprehensive Approach**

**Venue: Hotel Crowne Plaza, Rohini, New Delhi
Date: 10th and 11th January 2019**

Invitation

With great pride and honor, the Department of Nursing at Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) Delhi, announces a two day National Nursing Conference to be held on 10th and 11th January 2019 at Hotel Crowne Plaza, Rohini, Delhi – 110085.

The Theme of the conference is: **“Excellence in Oncology Nursing. Enriching Life: A Comprehensive Approach”**

In the past, the major cancer treatment was surgery, and the role of the nurse was limited to inpatient care of the surgical patient. As chemotherapy and radiation therapy evolved as treatment modalities, nurses looked for opportunities to contribute to cancer care.

Last two decades have seen a revolution in the evolution of newer techniques in the area of cancer diagnosis, treatment and oncology nursing. Cancer survival rates have improved and nursing has experienced a shift that acknowledged the importance of professionalism in nursing. Over the years the practice of oncology nursing has attained the role of direct care giver, educator, consultant, administrator, and researcher. Oncology nursing extends to all healthcare delivery settings from prevention, screening, treatment to palliation.

In this background, Department of Nursing of RGCIRC has planned the Academic Feast for Nursing Fraternity. We cordially invite you to participate in this event and make the most use of the vast knowledge and experience of the learned faculty. This is an opportunity for all nursing colleagues as well as nursing trainees to update themselves.

We look forward to maximum participation from your prestigious Institute / Hospital in the conference. You are requested to register early.

Thank You

Warm Regards,

Lt. Col (Retd.) Madhumita Dhall

Chief of Nursing

Chairman Organizing Committee

About RGCIRC

Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) is a visionary project of Indraprastha Cancer Society, a not for profit public society managed by a group of socially responsible selfless philanthropists, aimed at providing best cancer care to those who need it. The Vision of our founder members is "To prevent and treat cancer by providing affordable oncology care of international standards in India".

The philosophy of RGCIRC is to constantly strive towards excellence in cancer care through combination of latest technology, competent personnel and human touch. RGCIRC offers comprehensive services from prevention to palliation at an affordable price.

Rajiv Gandhi Cancer Institute and Research Centre is today counted amongst Asia's premier exclusive cancer centers that offer the unique advantage of cutting edge technology, put to use by renowned super specialists. This potent combination of man and machine ensures world-class cancer care to not only patients from India, but also from the neighboring SAARC countries and others. We are fortunate to have taken care of over 2 Lakh patients since inception in 1996. The Institute has been accredited by NABH and NABL for its quality of services, and Nursing Excellence and Green OT Certifications.

The Institute offers super specialized tertiary care services in Medical, Surgical and Radiation Oncology, streamlined into dedicated Site-Specific teams. Super Specialists at RGCIRC practice an Organ Specific Multi-disciplinary approach to cancer diagnosis and treatment, with the Tumor Board acting as a second opinion clinic for cases that are more critical than others.

Nursing at RGCIRC has a proud reputation for providing specialized care and comfort to patients diagnosed with cancer. Oncology nurses work together closely with doctors to ensure patients and their families experience compassionate care as well as access to the latest cancer treatments. Oncology services also include access to support group and education conference to assist patients and their families.

"We take care of all details to make sure that Patients journey is as simple and stress free as possible"
