Welcome Note

Dear Colleagues and Friends,

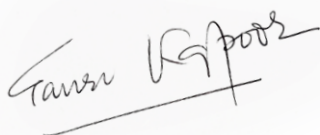

On behalf of Rajiv Gandhi Cancer Institute and Research centre, Delhi, we are delighted to invite you to Delhi for our 21st Annual International Conference, RGCON 2023. The theme this year is "Curing Cancer in Children and Adolescents- A Journey of Excellence".

The scientific program is being planned with a focus on covering the latest developments in pediatric oncology, ranging from day to day clinical practice to recent advances, research and data analytics. In addition to having a mix of plenary lectures by distinguished national and international experts, there will be workshops and case based discussions emphasising importance of multi-disciplinary care and role of pediatric surgeons, radiation oncologists, nurses and allied health professionals. Oral and poster presentations, PG quiz and meet the expert sessions have been included especially for our young and budding oncologists.

Dedicated sessions have been planned to encourage data presentations from around the world, especially from SAARC countries.

February is the best time to visit Delhi, the capital city of India famous for its gastronomy, architecture and history.

We look forward to seeing you at RGCON 2023 and making it a platform for academic exchange and networking.

Dr Gauri Kapoor

on behalf of Organising Committee, RGCON 2023
