Research Methodology Workshop

24th February 2023 (Friday) | 09:00 am to 04:00 pm

Venue: Hotel Crowne Plaza, Rohini, Delhi

Faculty Co-ordinators: Dr Victor Santana, Dr Meenakshi Devidas, Dr Gauri Kapoor

Mentors: Dr Ramandeep Arora, Dr Venkatraman Radhakrishnan & Dr Shuvadeep Ganguly

The **objective** of this workshop is to train participants in the basics of research methodology, how to critically analyse a paper and to help them develop a research idea into a structured protocol. We plan to select 30 participants for the workshop and preference will be given to researchers working in an academic setting who can demonstrate commitment to continuing research in Oncology. We can have a maximum of two candidates from a particular centre. This workshop will provide an excellent opportunity to the participants for interacting with world class faculties (led by Dr Victor Santana and Dr Meenakshi Devidas from **St Jude Children's Research Hospital**, USA) who have led high quality research work across the globe and have mentored numerous young colleagues.

Program Lecture (50 min) by Dr Victor Santana on:

How to review a manuscript and How to write a manuscript

1. Break-out groups to review one manuscript each with Preceptor / faculty as per worksheet provided (75-90 min) (This manuscript will be provided to all participants 2-3 weeks prior to workshop)
2. Each group to select one group leader to present a summary of their review in approximately 5 minutes
3. Introduction on how to develop a study proposal
4. Break-out groups – each table to discuss one study proposal under guidance of Faculty as per template provided
5. Each group to select one group leader to present a summary of research proposal in approximately 5 minutes.

***All participants will receive a link to pre-recorded modules (4) of 30 min each which they should have done based on which they are required to submit a study proposal of 500 words (study template will be sent to participants). The groups will be made based on type of proposal e.g. retrospective, prospective, clinical trial etc.**
