## RGCIRC Provides Free HPV Vaccinations to Mark Childhood Cancer Awareness Month

RGCIRC organized a free vaccination camp on 16<sup>th</sup> September 2024 at Rohini centre, to celebrate the Childhood Cancer Awareness Month.

India bears around 20% of the global childhood cancer burden, with nearly 75,000 children diagnosed annually. The event, titled "Celebrating Life", aimed to raise awareness on childhood cancer and combat cervical cancer by vaccinating individuals aged 9 to 14, in line with global recommendations.

On this occasion, Dr. Gauri Kapoor, Medical Director, RGCIRC Niti Bagh, and Director of Pediatric Hematology & Oncology, RGCIRC said, "Vaccinating at a young age is crucial because it provides protection before exposure to high-risk HPV types, thereby significantly reducing the risk of cervical cancer".

Around 250 free doses of the HPV vaccine were administered to childhood cancer survivors during the camp. These vaccinations were offered at no cost to attendees at the centre. The drive was successfully carried out with the contribution of WC Delhi Rajendra Place, IWC Faridabad Industrial Town, Rotary Club of Delhi South, Rotary Club of Delhi South End in providing the vaccinations.

In high-income countries, where comprehensive services are widely available, over 80% of these children are cured. However, in low and middle-income countries (LMICs), the cure rate is less than 30%. In LMICs, avoidable deaths from childhood cancer often result from challenges such as lack of diagnosis, misdiagnosis or delayed diagnosis, barriers to accessing care, abandonment of treatment, deaths due to toxicity, and relapse.

The event witnessed participation from several children and adult childhood cancer survivors, who received their vaccinations between 9:00 AM and 3:00 PM. This initiative highlights RGCIRC's commitment and noble service to advancing cancer prevention and supporting community health.

## Warriors MEET 2.0: Resilience, Hope & Faith

The Department of Physiotherapy & Onco Rehabilitation celebrated World Physiotherapy Day on 7<sup>th</sup> September 2024, at Indraprastha Hall by organizing Warriors MEET 2.0 - Resilience, Hope & Faith to raise awareness about the importance of physical activity among cancer survivors.

This Patient Support Meet was a great success! The event began with a lamp lighting ceremony, followed by an inaugural speech by the CEO, Mr. D.S. Negi, opening remarks by the Director Surgical Oncology, Dr A.K.Dewan, and a welcome note by the Director Operations & MS, Dr. Pinky Yadav. An interactive health talk and fitness activity session was also conducted by Dr. Navneet Singh.

The conference featured expert-led sessions and panel discussions for healthcare professionals who are committed to advancing their knowledge and skills in the field of critical care.

Highlighting the significance of the conference in pushing the boundaries of onco-critical care, Mr. D.S. Negi, CEO of RGCIRC, said, "Our commitment is to advance onco-critical care by not only improving our clinical practices but also by fostering a collaborative environment for ongoing education and research. We are dedicated to ensuring that cancer patients receive the intensive care they need, when they need it, to improve their chances of recovery and quality of life".

Dr. Parveen Kaur, Consultant & Head, MICU, RGCIRC and Organizing Chairperson of the conference emphasized the importance of such platforms for sharing knowledge and driving advancements in onco-critical care, "Many cancer patients find themselves in the ICU due to complications from their disease or its treatment. The purpose of this conference is to raise awareness that a cancer diagnosis is not a dead end. Intensive care is not just a reactive measure but an integral part of cancer care. Patients with cancer, irrespective of their stage, deserve the best possible intensive care".

The theme of the conference resonates with the broader goal of improving patient outcomes and addressing the financial and emotional toll on cancer patients and their families.
